

SAIC & THE ALLIED GROUP

- Founded in 1967 in Beuvrages (59), SAIC is today a subsidiary of the Allied group. SAIC is specialized in the rapid machining of flanges according to European and American standards (EN / ASTM / ASME), of rings, blinds and discs or pieces according to client drawings.
- In addition SAIC is the stockist of the Allied group in flanges, fittings and pipes. With more than 2000 tons of product available in European and American standards, SAIC is the group's stockist in France.
- The Allied group is the European leader in the production of fittings with his INTERFIT, TECTUBI, BASSI, RACCORDI FORGIATI, SIMAS and GIEMINOX factories.
- The fields of application of the SAIC products and the Allied group are: shipyards, the oil and gas industry, the chemical industry, nuclear, thermal, wind, hydraulic, and other renewable energies.

MACHINING, DISTRIBUTION & SERVICE

FLANGES , FITTINGS & PIPES

FLANGES

SAIC with its know-how in the machining of standardized and or special flanges for more than 40 years will be able to meet your requests.

RANGES:

- Standardized and special flanges (EN / ASTM / ASME / ISO): flat flanges, loose flanges, welding neck flanges and blinds.
- Forged Rings and blinds (diameter maxi 3200 mm - height 500 mm).

STEEL GRADES:

- Carbon steel:
P235GH - P245GH - P265GH - P280GH...
A105N - A350LF2 Cl1...

SAIC with its stock of more than 1,500 tons of products, enables responding quickly to all customer requests.

IN STOCK:

- European flanges (EN) Flat flanges & welding neck flanges in carbon steel:
From DN10 to DN1200 in PN10/16 and from DN10 to DN600 in PN25/40.
- ASTM/ASME flanges in carbon steel:
From 1/2 " to 48 inches in 150/300 lbs
From 1/2 " to 24 inches in 600 lbs and above.

Beyond this range and with the same concept of service, SAIC offers its customers all solutions for machining and delivery on short delivery.

TARGET MARKETS

- Shipyards
- Oil & gas industries
- Chemical industries
- Distributors & prefabricators
- Valves industries
- Hydraulic industries - Renewable energy industries

FITTINGS

SAIC, thanks to the Allied group, strengthens its ability to serve all types of butt weld fittings with the group's factories (INTERFIT, TECTUBI, BASSI, SIMAS, RACCORDI FORGIATI, SIMAS).

RANGES:

- Elbows, reducers, tees, caps, according to European (EN) and American (ASTM / ASME) standards.

STEEL GRADES:

- Carbon steel:
EN 10253-1: S235 - P235GH - P265GH - P265NL...
ASTM/ASME: A234 WPB - A420 WPL6- WPHY 42/52.

The SAIC stock of more than 500 tons allows it to respond quickly to all your requests in all types of carbon steel.

IN STOCK:

- Elbows from DN15 to DN600.
- Reducers from DN15 to DN600.
- Tees from DN15 to DN600.

Beyond this range and with the support of the Allied group's stocks, SAIC offers its customers all solutions on short delivery.

PIPES

SAIC, growing since several years, keeps in stock a range of welded and seamless carbon steel pipes from approved European sources. This stock of pipes allows SAIC to respond to the multi-product packages of its customers (flanges-fittings-pipes).

RANGES:

- Welded pipes: DN125 (139.7 mm) to DN250 (273 mm)
- Seamless pipes: DN15 to DN600 - 1/2" to 24".

STEEL GRADES:

- Carbon steel: P265GH - P265NL - A106B - API5L PSL1 Gr. B

Beyond this range and with the support of the Allied group, SAIC offers its customers all solutions on short delivery.

CERTIFICATION :

ISO 9001

SOME KEYS FIGURES:

MACHINING CAPACITIES

- Range maxi 3.20 M (external diameter)
- Machining, drilling all types of flanges
- Maximum weight : 6.5 tons

PRODUCTS IN STOCK

- 1000 tons - EN flanges EN1092-1
- 500 tons - ASTM/ASME flanges
- 500 tons - BW Fittings
- 500 tons - Pipes

DELIVERIES

- In stock: Available in 24 hours
- In touch up machining: Available in 24 to 48 hours
- In full production: Available in 3 to 4 weeks

OUR WORKSHOPS

- 20000 M² outdoor storage
- 15000 M² of warehouses
